

PUMPKIN SUNCATCHER

Color the stem of your pumpkin, then cut out on the dotted line.

Place contact paper or clear packing tape on the back of this page, so that the sticky side faces out, in the opening.

Fill your pumpkin with paper scraps or fall items (like leaves) that you find on the ground!

Optional: Instead of cutting your pumpkin out, glue items onto it to make a collage!

Original idea from @hotcoffee_creativekids
